## Professional Porting & Polishing Tools

When serious engine builders "blueprint" an engine, they'll "port" or smooth-off rough head castings around the intake and exhaust ports for improved, smoother air flow. The engine can then "breathe" easier, resulting in greater power and efficiency. Using the Porting Kit, you can perform this professional technique.

### Deluxe Porting Kit

Complete Kit includes:

- 2 Flapwheels
- 4 Cross Buffs©
- 7 Full Tapered Cartridge Rolls
- 7 Half Tapered Cartridge Rolls
- 21 Straight Cartridge Rolls (assorted sizes)
- 2 Mounted Points
- 2 Cartridge Mandrels
- 1 Cross Buffs© Mandrel with set screws
- 1 Custom Case

**#DPK-100**
